Manvel Zoning Board of Adjustment

Planning Department

City of Manvel

August 27, 2024

Variance Criteria

Manvel Code of Ordinances, Chapter 77, Zoning, Article III, Administration

Section 77-73., Zoning Board of Adjustment/Zoning Official and Section 77-74., Variances

After a public hearing consisting of 75% of the Zoning Board of Adjustment members, the Board shall place a concurring vote of 75% of the Board members to authorize a variation from the terms of a zoning ordinance. The Zoning Board of Adjustment shall not grant a variance unless it shall in each case, make specific written findings based directly upon the particular evidence presented to it which support written conclusions that:

- (1) The granting of a variance is necessary to secure appropriate development of a parcel of land which differs from other parcels in the zone by being of such restricted area, shape or slope that it cannot be appropriately developed without modification;
- (2) The granting of a variance will not be materially detrimental or injurious to other property or improvements in the neighborhood in which the subject property is located, nor impair an adequate supply of light or air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public health, safety and well-being or substantially diminish or impair property values within the neighborhood; and
- (3) The variance desired will not be contrary to the general purpose and intent of these regulations.

H.B. 1475 (effective September 1, 2021)

Allows an additional criterion to the three mentioned above, where by the ZBA can consider if “other matters” are in compliance with the City’s zoning ordinance. The items include:

- (1) The financial cost of compliance is greater than 50 percent of the appraised value of the structure as shown on the most recent appraisal roll certified to the accessor for the municipality under Section 26.01. Tax Code;
- (2) Compliance would result in a loss to the lot on which the structure is located of at least 25 percent of the area on which development may physically occur;
- (3) Compliance would result in the structure not being in compliance with a requirement of a municipal ordinance, building code, or other requirement;
- (4) Compliance would result in unreasonable encroachment on an adjacent property or easement; or
- (5) The municipality considers the structure to be a nonconforming structure.

Overview

The applicant intends to make a single-family subdivision with seven home sites. This request is to have one lot (Lot 4) to have a width of 110 feet, instead of the 120 feet required within the Open-Single Family Zoning District. This proposed subdivision development would allow seven single-family residential homes to be constructed, if approved. All of these lots will satisfy the minimum lot sizes, with the smallest lot at 54,673 square feet.

Staff Recommendation

City staff recommends approval of the variance request to Section 77-27 (b) (2) of the *Manvel Code of Ordinances* for a ten acre tract of land based on the following variance criteria:

- Section 77-27 (b) (1) states, “The minimum lot area is one acre”.
 1. *The granting of a variance is necessary to secure appropriate development of a parcel of land which differs from other parcels in the zone by being of such restricted area, shape or slope that it cannot be appropriately developed without modification.*

The property is currently a ten (10) acre tract and the applicant is proposing a seven lot subdivision, and is requesting a lot width of 110 feet for Lot 4. This property frontage faces Massy Ranch Road (County Road 100), and the properties are significantly deep that all lots will satisfy the required lot area and depth. This request is only for one lot of the seven total lots proposed.

2. *The granting of a variance will not be materially detrimental or injurious to other property or improvements in the neighborhood in which the subject property is located, nor impair an adequate supply of light or air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public health, safety and well-being or substantially diminish or impair property values within the neighborhood.*

Granting a variance will not be materially detrimental or injurious to other properties in the area. It will also not impair an adequate supply of light or air to adjacent property, will not substantially increase the congestion, fire danger, endanger the public health, safety and well-being of the neighborhood.

3. *The variance desired will not be contrary to the general purpose and intent of these regulations.*

Since the reduction in lot width is not significant, granting variance will not be contrary to the general purpose and intent of the city of Manvel regulations which is promoting the health, safety, and general welfare of the city, and its inhabitants.

Additional criteria such as financial cost, loss in lot area, loss of compliance with city ordinances or building codes, unreasonable encroachment on an adjacent property, or the structure is nonconforming are in compliance with the city’s zoning ordinance.

- (a) A financial consideration cannot be taken into account since the property owner does not own additional property to obtain minimum required ten (10) feet of lot width;
- (b) The loss of 25% lot area to comply with minimum required one 120 feet of lot width cannot be considered because the property owner does not own additional property to obtain the additional ten feet;
- (c) The property is vacant and there are no structures on the property, therefore, loss of compliance with city ordinances or building codes is not applicable;

Manvel Zoning Board of Adjustment

Planning Department

City of Manvel

August 27, 2024

- (d) The property is vacant and there are no structures on the property, therefore, unreasonable encroachment on an adjacent property or easement is not applicable; or
- (e) The property is vacant and there are no structures on the property, therefore, criterion related to non-conformity is not applicable.

Zoning Board of Adjustment Public Notice

Notice of public hearing was published in a newspaper of general circulation. All property owners within 200-feet of the site were notified. At the time of writing this report, staff has not received informational inquiries or letters from anyone for or against the request.
